

Morey-Saint-Denis

La Rue de Vergy

2023

5 215 bottles

This sunny terroir is located just above Clos de Tart and represents a geological symphony. Its soil, strewn with outcrops of rock in places, bears witness to a rare mineral richness.

Extremely low in organic matter, this terroir gives the wine an exceptionally deep minerality. Here, the roots of the vines plunge deep into the rocky soil, absorbing the mineral complexity of their environment.

The wines from this plot are crystalline, reflecting the influence of the ancient stones in the soil, which impart a distinctive character, exceptional minerality and purity.

Tasting notes

A refined and fragrant wine with clearly defined fruit, expressing the elegance of finely textured Pinot. The palate is light and supple, stretching out with precision into a subtle, delicate finish.

2023 will remain an exceptional year, marked by an endless summer and record-breaking temperatures – the hottest ever recorded. Despite these extreme conditions, the vintage stands out for its balance, finesse, and elegance. After a very dry winter, the milder spring allowed for steady growth and uniform

budburst. May and June, alternating between storms and sunshine, encouraged a swift and even flowering. Heavy rains at the end of June met the vines' water needs without causing damage. Veraison, slowed by August drought, resumed with late-August rains and accelerated with early September warmth.

Harvest began on September 11 under ideal conditions, with perfectly ripe grapes picked over ten days. Well-managed yields ensured outstanding quality. A rainy autumn helped recharge groundwater reserves. Despite climate challenges, 2023 offers wines of perfect balance, exceptional finesse, and rare elegance.

Age of the vines	Area	Grape variety	Alcool
1974	1,48 ha	100 % pinot noir	13°
